“

We engaged Neha for our interior design work, and she did an excellent job! She transformed everything lighting, draperies, furniture, and aesthetics giving our space a modern look with a cozy feel. Neha presented everything in 3D drawings with exact measurements, which greatly helped us in making decisions. I am glad I hired such an experienced interior designer and would definitely recommend her.

“ We had been living in the house for 17 years and didn't do major design updates. On very first meeting with her she told me 4-5 quick things which we never thought and helped us how the same house could be entirely new with minimum changes. She was very quick with her design, 3D walkthrough and even incorporated our requirements for our pet in practical layouts. She has very good and professional team.

DESIGN PRINCIPALS

Keeping Vastu shastra in mind as per client requirement, a fusion of Indian tradition and contemporary finishing was achieved with minimalistic design theme. Balance ensures visual stability, while proportion and scale maintain coherence among furnishings. Rhythm introduces flow through repetition and contrast, and emphasis draws attention to focal points like artwork or architectural features. Harmony and unity tie elements together for a cohesive look, and details—from textures to trims—add refinement.

I had online consultation with Neha Bansu from Decor Design Services. It was a surprisingly smooth and productive experience. Despite not meeting in person, the designer was able to understand my vision clearly through video calls and shared themes. She provided expert suggestions on space planning, color combinations, and even recommended some great budget-friendly decor options. Neha was able to suggest theme options with color combinations to make a perfect setup for my bathroom.

LET'S GET TECHNICAL

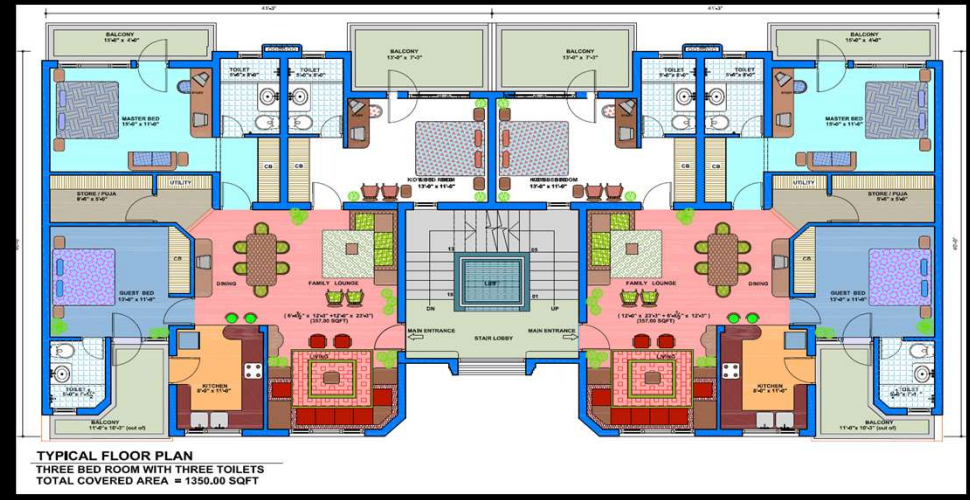

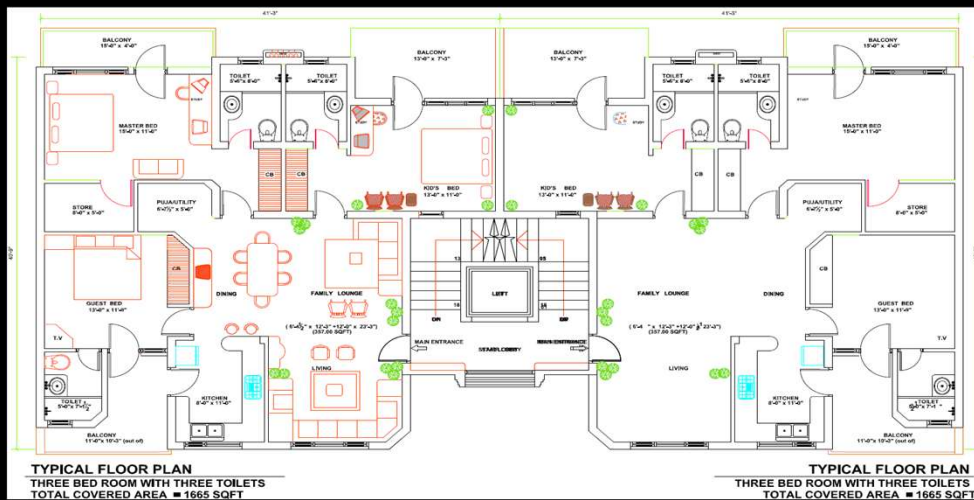

THE DEVIL IS IN THE DETAILS

DÉCOR DESIGN SERVICES

A lot goes through design process once we take your requirements, choices, themes, Vastu considerations, aesthetics and usability. Using various software we present the future rendering, color themes, perspectives, and layout for your dream spaces.

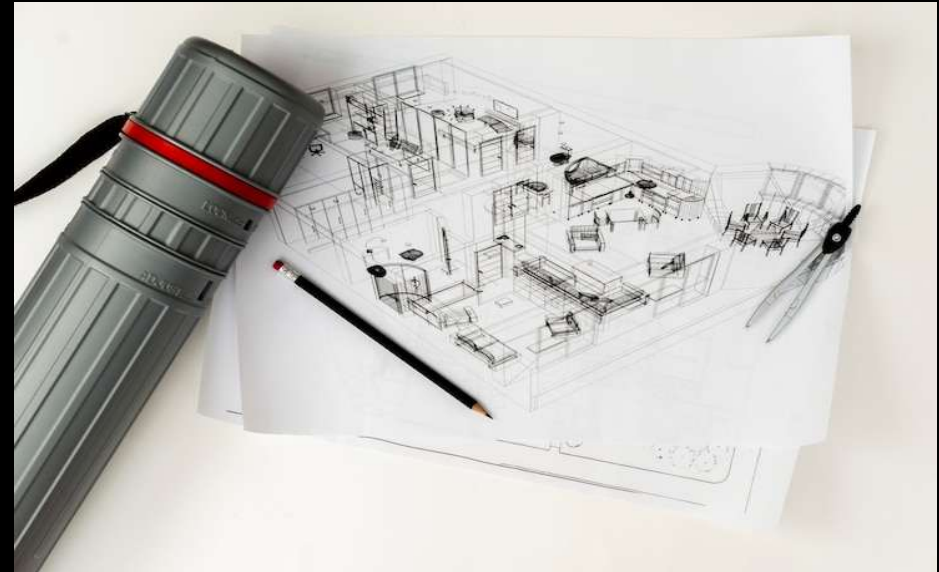

IT ALWAYS STARTS WITH FREE HAND SKETCHES

DÉCOR DESIGN SERVICES

Sometimes brain thoughts can be best depicted in free hand sketches. Its quick way to pour your ideas on a paper without any software/tools and create an easy interface to interact with clients with layman terms and vision.
